

What I bought in Japan

Heishiro Kanagawa 10 Jan 2019

Whiteboard marker

Niceday markers are bad (IMO)

- Incredibly short lifespan (don't know when to dump)
- Speed of drying = slow

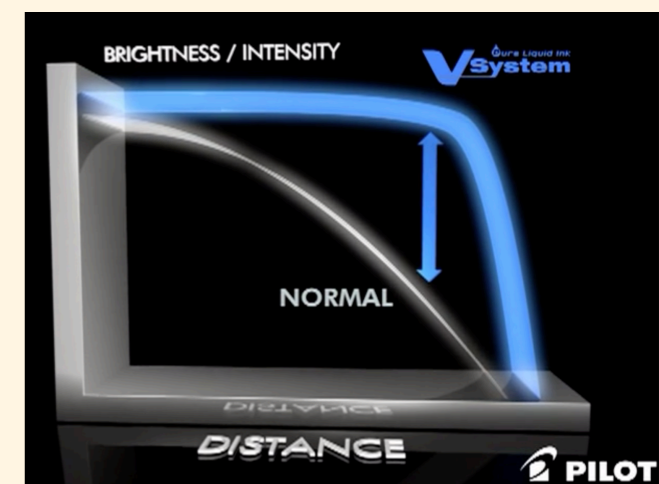

Proposal: Pilot V-Board Master

Pros:

- Replaceable ink cartridge/tip
- Long lifespan and nice visibility

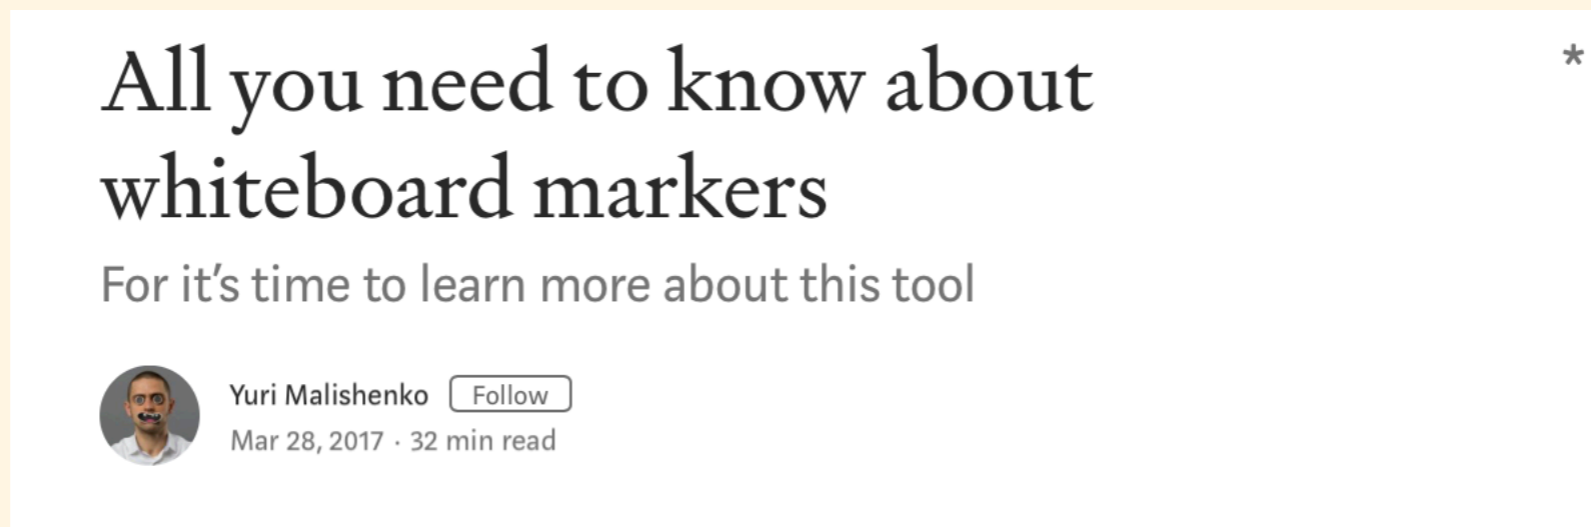

Cons:

- Might be stinky for some people
- Thick body and a bit heavy

Reference

A comprehensive review on whiteboard markers
(9 different brands are tested)
